

LA'S PREMIER REHEARSAL SPACE

STARWOOD REHEARSALS

We're excited to introduce Starwood Los Angeles, adjacent to our super depot in San Fernando. The new location builds on the success of the original in Nashville, leveraging PRG's worldwide network of production equipment and expertise and providing a blank slate and home base for musicians preparing to tour.

The studio provides on-site access to our entire suite of lighting, audio, video, LED and rigging gear.

The Starwood name evokes the legendary outdoor music venue situated just 5 miles from our first facility in Nashville and celebrates the rich history of concert touring. Since its launch, Starwood has hosted theater and arena-sized production setups for artists including Dan + Shay, Florida-Georgia Line, Gryffin, Jack Harlow, and Kelsea Ballerini.
